### SKILLS

- ❖ HTML,CSS
- ❖ JavaScript, ReactJS
- ❖ TailwindCSS, Bootstrap, MaterialUI
- ❖ Git, Github, Figma

### EDUCATION

- ❖ SSC | Gazipur Technical School & College *GPA: 4.32 | (28-07-2023)*
- ❖ Intermediate | Gazipur Technical School & College *Ongoing | 2024*

### PROJECTS

#### ❖ Word And Line Finder

Created a responsive "Text Comparison Tool" web application using Html, Css and JavaScript. It allows users to compare two blocks of text to identify common words, sentences and missing words. The tool features intuitive text clearing, copying functionality with pop-up notifications, and a user-friendly interface, making it ideal for content creators, developers, and researchers.

#### ❖ Portfolio Website

I built this website using HTML, CSS, and JavaScript, incorporating GSAP for smooth animations. Key features include a responsive design, intuitive navigation, a project showcase, and a functional contact form. This website highlights my ability to create modern, user-friendly web applications with dynamic effects.

### POSITION OF RESPONSIBILITY

- ❖ As a dedicated Class 12 student, I have accumulated several years of experience as a class captain, where I honed my leadership and team management skills. My role involved organizing activities, guiding peers, and ensuring effective communication within the class. In addition to my leadership duties, I have successfully participated in two science projects, where I played a key role in building and managing a team of students. These experiences have equipped me with the ability to lead, collaborate, and drive teams toward success in any endeavor.

### ACHIEVEMENTS / HOBBIES

- ❖ Learning English
- ❖ Explore Ai
- ❖ Research about New Technology
- ❖ Everyday Coding
